THE *Open* GROUP

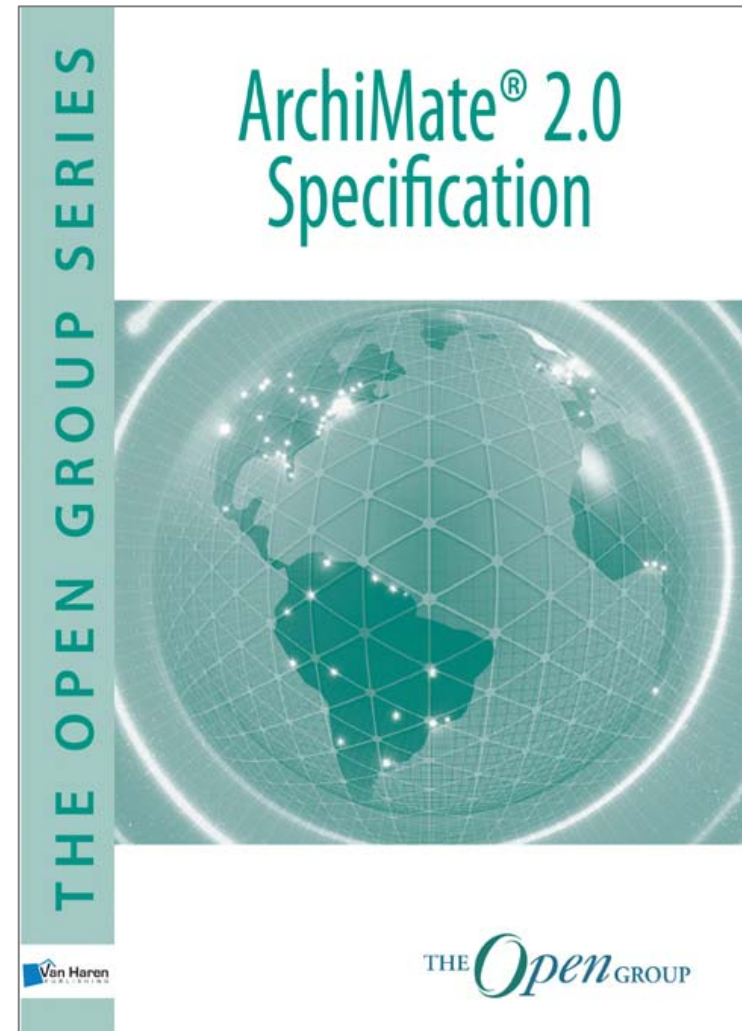

# Objectives

The objectives of this presentation are to:

- Describe The Open Group ArchiMate Certification for People program
- Understand the requirements for certification

# ArchiMate, an Open Group Standard

- An open and independent modeling language for enterprise architecture
- A notation for describing, analyzing and visualizing relationships amongst business domains
- A common language

# ArchiMate 2.0

- A major update to the ArchiMate standard
  - Adding new features as well as addressing feedback and comments raised
  - An upwards-compatible evolution
  - ArchiMate 2.0 now supports modeling throughout the TOGAF Architecture Development Method

# ArchiMate Certification for People

- Ensures that individuals are knowledgeable about ArchiMate
  - Have the capability to use ArchiMate for modeling
- Is a common baseline of knowledge
- Provides a visible trust mark
- Is a foundation for the emerging profession

# ArchiMate 2 Certification

Tag	Purpose
<i>ArchiMate 2 Certified</i>	<p>The purpose of certification at this level is to provide validation that the Candidate has gained knowledge of the terminology, structure, and concepts of ArchiMate, and has the capability to use ArchiMate for modeling.</p> <p>The learning objectives at this level focus on knowledge and comprehension.</p>

# Target Audience

- Individuals requiring a deep understanding of ArchiMate 2
- Architects who will be responsible for developing architecture artifacts using ArchiMate
- Architects who wish to introduce ArchiMate into an architecture practice
- Architects who want to achieve a recognized qualification to demonstrate their detailed knowledge and ability to apply ArchiMate 2

# Topic Coverage

- The basic concepts and key terminology of Enterprise Architecture and ArchiMate
- The principles and core concepts underlying the ArchiMate core language and extensions
- How to apply concepts from the ArchiMate layers and extensions
- How to apply the ArchiMate relationships
- How to apply ArchiMate views and viewpoints
- How to adapt the ArchiMate language
- How to apply ArchiMate certified tools to support modeling and analysis
- How ArchiMate relates to other languages and frameworks
- How ArchiMate can be applied with the TOGAF Architecture Development Method
- How to develop ArchiMate models

# Certification Requirements

## Requirements

Certification is only achieved after satisfactorily completing an Accredited ArchiMate Training course, including completion of practical exercises together with an examination:

Exam Type: Multiple Choice

40 Questions / 60 minutes

Supervised: Yes

Open Book: No

# Certification

- Within 6 working days of receipt of the exam results you will receive an email from The Open Group and be invited to login to complete your certification
- You may download and print your certificate

# Acknowledgements
