...Real Change in Real Time

The screenshot shows a web browser window displaying the Adaptive Portfolio Management application. The address bar shows the URL: [http://www2.adaptive.com:8080/a3/advsearchres.jsp?ctx\\_cq=12&ctx\\_value=ArchitectureComponent&ctx\\_run=y](http://www2.adaptive.com:8080/a3/advsearchres.jsp?ctx_cq=12&ctx_value=ArchitectureComponent&ctx_run=y). The page header includes the Adaptive logo, a search bar, and navigation links like 'Admin Console', 'Create Item', 'Dashboard', 'Reports', 'My Account', 'Logout Rian Mey', and 'Home'. The current perspective is 'Charter Blue Sky'. The main content area is titled 'Search Results' and shows 'Showing 1-10 of 133 Items matching "Class[ArchitectureComponent]"'. The search is powered by Lucene. The results are sorted by Name. The first three items are listed:

Items		Added:	Modified:	Version:	Perspectives:
<a href="#">AA Rewards</a>	Rewards system for AA card users	07 April 2003 17:16:07 BST	25 July 2003 17:13:09 BST		Charter Perspective
<a href="#">Account Service Mgt</a>		07 April 2003 17:16:07 BST	07 April 2003 17:16:07 BST		Charter Perspective
<a href="#">ACD (Application Credit estmat)</a>		07 April 2003 17:16:07 BST	12 August 2003 11:02:19 BST	1.3.1	

Each item entry includes a list of metadata: Adaptive, Class (ArchitectureComponent), Asset Type (Application), State (Published), Projects Using (ACR Extensions), Project Producing (ACR Extensions), and Owner (Administrator).

...Real Change in Real Time

The screenshot shows a web browser window displaying the Adaptive portfolio management application. The browser address bar shows the URL: [http://www2.adaptive.com:8080/a3/asset.jsp?uid=GE\\_Application\\_48-AST](http://www2.adaptive.com:8080/a3/asset.jsp?uid=GE_Application_48-AST). The application header includes the Adaptive logo, a search bar, and navigation links such as "Admin Console", "Create Item", "Dashboard", "Reports", "My Account", "Logout Rian Mey", and "Home". The user's perspective is set to "Charter Blue Sky".

The main content area displays the details for "ACR (Application Credit rating)". The interface features a list of application components, each with an "Edit" or "Add" button:

- Overview (Edit Overview)
- Classification (Edit Classification)

The screenshot shows a web browser window displaying the Adaptive portfolio management application. The address bar shows the URL: [http://www2.adaptive.com:8080/a3/asset.jsp?uid=GE\\_Application\\_48-AST](http://www2.adaptive.com:8080/a3/asset.jsp?uid=GE_Application_48-AST). The page title is "RAS | Model" and the user is logged in as "Rian Mey". The application is titled "ACR (Application Credit rating)".

The main content area displays the following classification details:

Common	
Criticality	Very High
eTDM Business Function	
Business Functions	CRM Capability Delivery, CRM Operations Readiness, Customer QoS/SLA Management, Disaster Recovery, Security & Fraud Management, Market Research & Analysis, Market Strategy & Policy, Order Handling, Product, Marketing & Customer Performance Assessment, Billing & Collections Management
Frequency	
Frequency	Very rare
Trove	
Programming Language	C#, C++
Operating System	MacOS, OS/2, Windows 95/98/2000, Windows NT/2000
Natural Language	English
Development Status	5 - Production/Stable
Topic	Accounting
Intended Audience	End Users/Desktop

Below the classification table, there are sections for "Application Interfaces", "Application Decomposition", and "Business Processes", each with an "Edit" link.

...Real Change in Real Time

The screenshot displays a web browser window with the URL `http://www2.adaptive.com:8080/a3/dependencies.jsp?uid=GE_Application_48-AST`. The page title is "ACR (Application Credit rating) - Application Interfaces". A "Graph Browser" sidebar on the left shows a tree view with "Type" selected, listing "ArchitectureComponent", "inputPort", "Interface", and "outputPort". The main content area shows a dependency graph for "ACR (Application Credit rating)". At the top is a "Hold" node (ApplicationComponent). Below it are four "Port" nodes (Interface). The leftmost "Port" node is connected to an "Interface" node (20), which is connected to a "Port" node (48), which is connected to an "ICBS" "Hold" node. The second "Port" node is connected to an "Interface" node (109), which is connected to a "Port" node (48), which is connected to an "AGC Data Warehouse" "Hold" node. The third "Port" node is connected to an "Interface" node (77), which is connected to a "Port" node (48), which is connected to a "BACS (Branch Automated Credit Scoring)" "Hold" node. The rightmost "Port" node is connected to an "Interface" node labeled "auditing", which is connected to a "Port" node labeled "Collection of audit data", which is connected to an "ACT Contact Database" "Hold" node. There are also direct connections from the "Hold" nodes to the "Port" nodes, with values 9, 13, and 48. The "Interface" node "auditing" is also connected to a "Port" node labeled "Monthly audit".
