

NSI XML Retail Accounting Report Consuming Application 1.0 Conformance Statement

Note to submitter: This form contains a series of questions that need to be answered. Please complete ALL the fields in the questionnaire below to produce a conformance statement for your XML Retail Accounting Report Consuming Application. Your completed form should be submitted to the Certification and Verification Authority when you register for certification. Please ensure that you use the current version of the questionnaire (available on the certification/verification web site) for your submission. See the Guide to the NSI Certification and Verification Program and Guide Supplements for more information. Please note that all information in this conformance statement will appear on the public Register of certified practices. Revision History showing the changes in this Conformance Statement from prior versions is contained at the end of this document.

1. Submitter Information

Please enter the name of the author of this Conformance Statement.

Author:

Organization:

2. Technology

2.1 Identifier

Please provide an identifier for the XML Retail Accounting Report Consuming Application.

If the application has a product or public name, please specify that, along with the release and/or version number. Otherwise, please provide a name for identifying this particular technology. This identifier should be unique at a given release level to the combination of components defined in 2.2 below or should be generic to the specific combination of components and include an overall release number for the release subject to certification (e.g., COREONE or CORE version 1.1).

Identifier:

2.2 Scope of Technology

Please define the constituent components of the technology. This definition must include all components that implement any part of the Technical Standard, or that are in some way impacted by the Technical Standard. This definition should include the release and/or version number for each component.

It is necessary to define the composition of a technology in terms of constituent components so the certifying Organization knows its obligations each time it modifies a technology for a specific market need or changes its underlying design.

These components could consist of one or more from the following non-exhaustive list:

- *Hardware*
- *Drivers (software or hardware or both)*
- *Application software*
- *Interfaces (hardware or software)*
- *Protocol engines*

- *Data processing algorithms*
- *Firmware*
- *Software libraries*
- *Software objects*
- *System software*
- *Compilers*
- *Data translators*
- *Other*

The technology is comprised of the components stated below. The Organization must list every component that is impacted by the Technical Standard.

3. Implementation of Optional Data Items

Question 1: Which of the following optional data items are processed by the XML Retail Accounting Report Consuming Application?

For each optional data item listed below, please indicate how it is handled by the XML Retail Accounting Report Consuming Application.

Response:

Optional Data Item	Supported	Consolidated into a single data item	Ignored or discarded
Bill/Number	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cashing Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
County Code	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Country Code	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Damaged Ticket Count	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Damaged Ticket Value	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Date Returned	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Instant Base Cashing Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Instant Bonus Cashing Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Instant Bonus Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Instant Coupons	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Middle Name	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Net Sales	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online Base Cashing Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Online Bonus Cashing Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online Bonus Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online Charges	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online Promotion Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online Redeems Count	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online Promotion Non-Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Online Replay	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Pack ID	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Postal Code Extension	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Prefix	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Previous Balance	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Previous Week Sweep Amount	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Return Amount	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Return Tickets Quantity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Store Number	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Suffix	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Supplier	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sweep Date	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Title	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Total Sales Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Wholesale Per Pack	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Wholesale Per Ticket	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Year To Date Commission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Rationale:

Lotteries may include within their XML documents any of the data element marked as "Optional" in the "Status" field of the standard Mapping Table.

Reference:

XML Retail Accounting Reports in the Lottery Industry, Version 1.0 (Document Number TS0402) - Section 5.4, NSI Standard Lottery-Retail Accounting Mapping Table

Question 2: If a single line item is used to aggregate certain non-processed optional data items, what is its label and description?

Please leave Line Item Label and Description blank if no such line item is used.

Response:

Line Item Label:

Line Item Description:

Rationale:

The Conformance Requirements specify that optional data items may be consolidated into a single line item if it is indicated in the Conformance Statement that the data item is not explicitly supported, but rather that the data is consolidated into a single data item.

Reference:

The Conformance Requirements for a conformant XML Retail Accounting Report Consuming Application in the NSI XML Retail Accounting Report Consuming Application 1.2 Conformance Requirements Document.

4. Validation Environment

Specify the name and version of the Validation Harness.

Validation Harness Name:

Validation Harness Version Number:

Specify the hardware platform and software environment in which this technology's conformance has been demonstrated. Define this validation environment in sufficient detail to enable the validation process to be repeated. For the hardware platform, this should include the unique name and identity of the hardware used and its release or version number. For the software architecture, this should include the name, version number, and release identifier of all the software components, including the applicable operating system.

Hardware Platform (on which technology was validated):

Software Architecture (on which technology was validated):

5. Operational Environment

If the environment for which you wish to claim and guarantee conformance is not identical to the environment in which conformance was validated, specify the hardware platform(s) and/or software environment in which this technology's conformance is guaranteed.
