THE *Open* GROUP  
Making standards work<sup>®</sup>

# Jericho Forum - achievements

---

## □ Primary Publications:

- Jericho Forum “Commandments” – design principles for secure architectures in de-perimeterized environments
- Secure Collaboration Oriented Architectures Framework
- Cloud Cube Model – distinct architectures in Cloud Computing
- “Commandments” Self Assessment Scheme
- Jericho Forum “Identity Commandments – design principles for trusted identities in cyberspace

# Jericho Forum – future

---

## □ **Current Projects:**

- Identity, Entitlement & Access (IdEA) management in de-perimeterized environments – requirements framework
- Identity Training Pack – explaining the fundamentals underlying identity & privacy, identity in cyberspace, personas and their protection, entitlement, self-protecting resources, scalability & technology challenges.
- Self-Protecting Data – white paper
- Cloud Security Alliance
  - CSA version 3 Guidelines, delivered Nov 2011

## □ **In 2012 – add theme on de-perimeterization requirements ....**

“Real World” meets the Jericho Forum:

Cloud; PCI; Big Data; Consumerization; Semantic Web; etc.

# Jericho Forum – Roadmap Summary
