TOGAF® 9 Foundation

The purpose of certification to TOGAF 9 Level 1, known as TOGAF 9 Foundation, is to provide validation that the Candidate has gained knowledge of the terminology, structure, and basic concepts of the TOGAF 9 standard, and understands the core principles of Enterprise Architecture and the TOGAF standard.

The learning objectives at this level focus on knowledge and comprehension.

Target Audience

• Individuals who require a basic understanding of the TOGAF 9 standard
• Professionals who are working in roles associated with an architecture project such as those responsible for planning, execution, development, delivery, and operation
• Architects who are looking for a first introduction to the TOGAF 9 standard
• Architects who want to achieve Level 2 certification

The Value of this Certification

Individuals certified at this level will have demonstrated their understanding of:

• The basic concepts of Enterprise Architecture and the TOGAF standard
• The core concepts of the TOGAF 9 standard
• The key terminology of the TOGAF 9 standard
• The ADM cycle and the objectives of each phase, and how to adapt and scope the ADM
• The concept of the Enterprise Continuum; its purpose and constituent parts
• How each of the ADM phases contributes to the success of Enterprise Architecture
• The ADM guidelines and techniques
• How Architecture Governance contributes to the Architecture Development Cycle
• The concepts of views and viewpoints and their role in communicating with stakeholders
• The concept of building blocks
• The key deliverables of the ADM cycle
• The TOGAF reference models
• The TOGAF certification program
Examination

Certification is only achieved by passing the examination.
