

## COE Linux Platform V1 Test Campaign Definition Form

This form must be completed by the applicant to indicate the Test Campaign that will be used to provide the required Indicators of Compliance to the Common Operating Environment Platform product standards. When completed, please have the form signed by an *authorized signatory* and submit it to the COE Linux Platform Certification Authority at The Open Group.

The form is organized in three sections which represent the 'component' product standards that comprise the full COE Linux Platform V1 Product Standard:

- Test Campaign for COE Linux Platform Specifications
- Test Campaign for COE Linux Platform Government-Supplied Kernel Source (GSKS)
- Test Campaign for COE Platform Security

The COE Linux Platform Certification Authority will check the information provided and notify the applicant of approval. After receipt of Test Campaign approval, the applicant may proceed to submit the Indicators of Compliance along with a Purchase Order for the relevant certification fee.

.....
