

Bio for Amaka Chidozie

Amaka Chidozie is a member of the Avionics Architecture Team(AAT) at PMA-209 where she heads up the Hardware Open Systems Technology (HOST) team. She joined AAT after serving on active duty for over ten years. Her first assignment was to USS FORT MCHENRY (LSD-43) where she served as the communications and intelligence officer. During this time, she participated in multiple deployments to the 5th fleet and 6th fleet region and completed her Surface Warfare Officer qualification. Her next assignment was to USS IWO JIMA (LHD-7) where she served as the auxiliaries engineering officer. She joined the Engineering Duty Officer community and served as the project manager for several surface ships at Ship Repair Facility Yokosuka, Japan.

Amaka graduated from the U.S. Naval Academy in 2007 with a Bachelor of Science in Chemistry. She obtained her masters in Systems Engineering from Georgia Institute of Technology in 2014. Her awards and decorations include the Navy and Marine Corps Commendation Medal (three awards) and Navy and Marine Corp Achievement Medal (three awards).
