Business Capability Maps Webinar

Business capabilities are a simple and clear way of describing what the business does. Enterprise Architects use capability maps to understand the strengths of the business, identify how it needs to change, and guide management of application portfolios and technology.

[Register now](#) for the webinar on March 7, 2024, at 10am (Eastern Time).

Call For Presentations

If you are interested in presenting at future events, then please submit a Presentation Proposal [here](#).

Using the Open Footprint Data Model to Track and Report Carbon Emissions Workshop

This workshop will explore critical regulations and mandates related to the tracking and reporting of Scope 1, 2, and 3 emissions. It will highlight the significance of these efforts in advancing toward a carbon-neutral future, and explore ways to harness technology for successful implementation.

Find out more [here](#).
