The Open Group Welcomes Shell as Its Latest Platinum Member

SAN FRANCISCO, CA, February 28, 2024: The Open Group, the vendor-neutral technology standards organization, has today announced that Shell Information Technology International, Inc. has become a Platinum Member of the organization. Shell joins other industry-leading Platinum Members DXC Technology, Fujitsu, Huawei, IBM, Intel, and OpenText.

Shell has been a Member of The Open Group since 1997, and has contributed to its numerous Forums which enable collaboration to develop open technology standards and certifications. [Read more...](#)

Increased Cybersecurity Resiliency through System Architecture - Best Practices - Webinar

In this webinar, hosted by The Open Group, we will look at commonly used infiltration techniques to propose some best practices to utilize during system architecture development, development, and system deployment phases.

The webinar will be presented by: Dr. Justin Pearson, Director of System Architecture, Lynx; Doug Britton, Chief Strategy Officer and Director, RunSafe Security; and Tesfa Mael, Software Engineer, wolfSSL.

[Register now](#) for the webinar on April 10, 2024, at 12 PM (Eastern Time).

The ArchiMate® 3.2 Specification and the ArchiMate Certification Program

This second webinar in The Open Group Learning Pathways Webinar series introduces the ArchiMate 3.2 Specification and the ArchiMate Certification Program. It covers what's new in the latest version of the modeling language specification, its relationship to the TOGAF Standard, and how to get started with the modeling language. The webinar also focuses on the learning paths available in the ArchiMate Certification program, as well as certified ArchiMate tools.

[Register now](#) for the webinar on April 18, 2024 at 8am Chicago, 9am New York, 2pm London, 3pm Berlin, and 4pm Riyadh

Repeat:

1:30pm Mumbai, 4pm Beijing/Hong Kong, and 6pm Sydney

Security Forum Update

The Security Forum completed Forum Review of the White Paper: “Calculating Reserves for Cyber Risk: Using Calibrated Estimates for VaR and CVaR Calculations with Open FAIR™ Risk Analysis” and progressed it to formal ballot for approval to publish. The Security Forum also entered the Security Principles for Architecture Standard into formal Forum Review, with publication expected in early 4Q2024.

The Open Group Technology Forum Update

The Open Trusted Technology Forum continued to make progress on the next iteration of the Open Trusted Technology Provider™ Standard (O-TTPS), completing review of responses to the Supply Chain Security Concerns Survey and input given during the first Supply Chain Security Roundtable Event from late 2023. The OTTF is now working to consolidate learnings into a threat and risk matrix that will supplement the Open Trusted Technology Provider Framework (O-TTPF) Guide.

The Assured Dependability Work Group Update

The Assured Dependability Work Group continued to make progress on the new version of the Open Dependability through Assuredness™ (O-DA) Framework. Moreover, the Work Group began developing content for inclusion in a data sheet and a dedicated web page on www.opengroup.org that will allow improved marketing efforts by the Work Group Members.
