GROUP

*The Open Group
Awards 2018
Categories and Nominations*

Cutty Sark Museum
Greenwich,
London, England

Tuesday, April 17th, 2018

The Open Group Awards are a peer-to-peer recognition of the members, teams and individuals who have made outstanding contributions to industry innovation through the development of open standards and architectural best practices.

Category - Outstanding Contribution by a Member Organization

Award for The Open Group Member organization that has consistently demonstrated outstanding contributions to the ideals, vision, and mission of The Open Group

APG/Sparx Services North America - using the TOGAF®, ArchiMate® and IT4IT™ standards in customer engagements

AVIC DIGITAL - implemented the TOGAF®, ArchiMate®, FACE™ and IT4IT™ standards internally and in Chinese government institutions and incorporated the TOGAF® standard into the Dictionary of China's Intelligent Manufacturing

BR&L Consulting - work in the Open Process Automation™ Forum

CC&C Solutions - contribution and leadership over a number of years to the TOGAF® and IT4IT™ standards

DXC - Eva Kuiper for work on the Open FAIR™ Process Guide and the Security Forum

IBM - significant initiatives such as UNIX® standardization and certification, Open Professions program and the OTTPS supply chain

Infinite Dimensions Integration - created full scale test surrogates for navigation systems based on BALSAs implementation of the FACE™ Technical Standard

Metaplexity - contribution and leadership over a number of years to the TOGAF® standard

Orbus Software - over 14 years of using the TOGAF®, ArchiMate® and IT4IT™ standards in customer engagements

Probabilitymanagement.org - development and support of the Open FAIR™ program
Shanghai Information Training Center - accredited training course provider for the TOGAF® standard in China

TES-SAVi - developed the US Army's first FACE™ verified product and subsequent related applications

Category - Partnership Award

Award for consortia or similar organization that has partnered effectively with The Open Group

Alignment of a Multi-national Open Systems Architecture (AMOSa) - development of the FACE™ Technical Standard

ASL BiSL - Mark Smalley's work on the IT4IT™ Standard

Business Architecture Guild - Business Architecture work in relation to updates to the TOGAF® standard

SABSA Institute - partnered on several projects to develop both the TOGAF® standard and Security ecosystem at The Open Group.

San Jose State University – in support and development of the Open FAIR™ people certification program

Category - New Initiative

Award for the individual or organization that introduced a significant new initiative to The Open Group

Charles Betz - Digital Practitioners Work Group

Dennis Brandl - Open Process Automation™ Forum

Don Bartusiak - Open Process Automation™ Forum

ExxonMobil - Open Process Automation™ Forum

Eugene Tung - Open Process Automation™ Forum

Karel van Zeeland - IT4IT™ Standard

Sensor Open Systems Architecture (SOSA)

VeriSM - working with the IT4IT™ Forum

Category - Most Valuable Use of a Standard

Award for the most valuable use of a standard or business tool developed by Members of The Open Group

Alignment of a Multi-national Open Systems Architecture (AMOSa) - used the FACE™ Technical Standard to develop and integrate FACE™ components with software built to other standards e.g. European Component Oriented Architecture (ECOa) and the Software Communications Architecture (SCA) standard

CC&C and AeHIN - impact on a region with TOGAF® and ArchiMate®

DAIN - use of the ArchiMate® standard in making EA mandatory for Czech government departments

Government of Uruguay - using a tailored version of the TOGAF® standard for the development of a Uruguayan e-government architecture

Orbus Software - first tool vendor to provide a pre-configured TOGAF® Repository with its iServer modelling platform and involved in over implementations at over 350 corporations

Rockwell Collins - developed Mission Flight Management Software which was the first ever product to gain FACE™ Conformance Certification and subsequently the Avoidance Re-router product for use within aircraft, ground base stations, and centralized flight centers

Royal Schiphol Airport - used the TOGAF® and ArchiMate® standards as a reference guide to align on terminology and products as part of a digital transformation strategy at one of the world's busiest airports

TES-SAVi, Honeywell, RTI, Wind River, Mercury Systems - development of the FACE™ BITS 2017 and FACE™ NAVAIR TIM, 2017, multi-member collaboration using the FACE™ Technical Standard v2.1

Category - Most Significant Project

Award for the most significant outside project brought into The Open Group

The Open Group IT4IT™ Standard

The Open Group FACE™ Consortium

The Open Group Open FAIR™ Certification Program

Category - Customer Procurement

Award for procurement against a standard of The Open Group
by a customer organization

City of Prague/DAIN - €1m EA and TOGAF® standard related project that is in the final of the Czech IT project of the year

IndEA - establishing best in class architectural governance, processes and practices based on the TOGAF® standard

Infinite Dimensions Integration - for the Resilient Embedded GPS/Internal Navigation System Prototype Pilot (R-EGI) that demonstrated the strategic change in avionics systems development using the FACE™ Technical Standard

Joint Common Architecture Demonstration - provided in-depth hands-on experience using the FACE™ Technical Standard, processes and tools during a model based procurement requiring an Open Architecture approach

Category - Outstanding Certification Product

Award for the most outstanding product produced in accordance with a
Certification Program of The Open Group

Apple MacOS - UNIX® certification

Good e-Learning - TOGAF® certified e-learning course delivered to over 5000 students

Oracle Solaris - UNIX® certification

Category - Ecosystem Award

Award for a contribution by an individual or organization
to The Open Group ecosystem

Crew Mission Station (CMS) System - this project identified new processes and guidance to support the implementation and adoption of the FACE™ Technical Standard

Lars Rossen, Georg Bock and Karel van Zeeland - development of the IT4IT™ standard

Mike Fulton, Nationwide - work in relation to the TOGAF standard and the IT4IT™ standard

Open Process Automation™ Forum - developing a standards-based, open, secure, interoperable process control architecture

Open Trusted Technology Forum - creating OTTP-S and its adoption to an ISO standard

Stephen Marshall, IBM - Business Architecture work in relation to the TOGAF® standard

Zhang Xinguo, CIO, Aviation Industry Corporation of China (AVIC) used the TOGAF® standard to transform his organization and translated TOGAF 9.1 into Chinese for the Chinese market.

The Open Group Most Valuable Contributor Award - Organization

The (first) annual achievement award for valuable contribution
by an organization to The Open Group

The Open Group Most Valuable Contributor Award - Individual

The (first) annual achievement award for valuable contribution
by an individual to The Open Group
